

## **PAME II – 2018**

### **Agenda 6.9(c): Placeholders for 2 potential projects**

Iceland will assume the Chairmanship of the Arctic Council from Finland at the upcoming Ministerial meeting in Rovaniemi in May 2019. The Chairmanship plan is taking shape and two projects, built on the Arctic Marine Tourism Project – Best Practice Guidelines (AMTP) are on the wish list. However, at this time those project proposals are unfinished and equally importantly: un financed. Iceland therefore kindly asks for a placeholder in PAME Workplan for those projects, until the meeting of the WG-Chairs and Executive Secretaries with the SAO Chair, planned in Reykjavik at the end of November 2018.
